PROFESSIONAL SUMMARY

Cybersecurity Technology student at the German-Malaysian Institute with a CGPA of 3.95 and hands-on experience in network security, digital forensics, intrusion detection, Linux, and virtualization. Independent and adaptable in fast-paced environments, with the ability to work with minimal supervision while delivering secure and reliable technical solutions. Seeking a cybersecurity or information security internship to apply technical knowledge and gain practical industry experience.

EDUCATION

Diploma in Cybersecurity Technology

July 2024 - Expected June 2027

German-Malaysian Institute

- CGPA : 3.95 / 4.00

Science Stream

May 2022 - Feb 2024

MARA Junior Science College (MRSM) Pengkalan Chepa

LANGUAGES & SKILLS

Technical Skills

- Cybersecurity & Digital Forensics:** Autopsy, FTK Imager, Foremost, Cowrie Honeypot, Ncrack
- Network & System Security:** iptables, Squid Proxy, Cisco Packet Tracer, firewall configuration, network configuration, troubleshooting
- Virtualisation:** Oracle VirtualBox, VMware Workstation, VMware ESXi
- Operating Systems:** Linux, Windows
- Programming:** Java, C, Python
- Software & Development Tools:** Android Studio, Microsoft Excel
- Web Technologies:** HTML, CSS

Soft Skills

- Adaptability
- Independent & self-driven
- Attention to detail
- Articulate verbal communication

Languages

- Bahasa Melayu: Fluent
- English: Fluent

ACADEMIC PROJECTS

Automated SOAR-Based Incident Response System - Final Year Project | *In Progress*

LimaCharlie, SOAR, Security Automation, Web Dashboard

- Developing an automated Security Orchestration, Automation and Response (SOAR) system that integrates threat detection with automated incident response actions.
- Integrating LimaCharlie backend security capabilities into a centralized web interface for monitoring and response.
- Implementing a predefined response rule to isolate malicious IP addresses while improving dashboard usability for security administrators.

SSH Brute Force Detection Using Cowrie Honeypot

Cowrie Honeypot, Ncrack, Linux, Flask

- Deployed a Cowrie SSH honeypot in a virtualized environment to capture and monitor simulated brute-force attacks.
- Conducted controlled SSH brute-force testing using Ncrack and analyzed authentication and connection events from Cowrie logs.
- Developed a Flask-based dashboard to display attack information, including source IP addresses, attempted credentials, timestamps, and attack status.

Secure Network Infrastructure

VMware ESXi, Linux, iptables, Squid Proxy

- Designed a virtualised network environment with separate LAN and DMZ segments using VMware ESXi.
- Configured Linux iptables firewall rules for traffic filtering, forwarding, NAT, and network access control.
- Implemented Squid Proxy for web access control and tested firewall, proxy, and network connectivity configurations.

Digital Forensics Investigation & File Recovery

Autopsy, FTK Imager, Foremost

- Examined digital evidence using Autopsy and FTK Imager for file, metadata, and deleted-file analysis.
- Performed evidence examination, file extraction, and MD5 hash verification to support evidence integrity.
- Used Foremost in a Linux environment to perform signature-based file carving and recover files from raw evidence data.

WORK EXPERIENCE

Part-Time Baking Crew & TikTok Live Host - Foodelista

Section 23, Shah Alam | May 2024

- Assisted in the preparation and production of cakes and desserts while supporting daily operations.
- Hosted TikTok Live sessions to promote products, engage customers, and support sales.
- Responded to customer inquiries and communicated product information clearly during live sessions.

Part-Time Retail Assistant - Al-Fatimah Hijab

Section 7, Shah Alam | April 2024

- Assisted customers with product selection and basic styling advice.
- Handled cashier operations, payments, and receipt issuance accurately.
- Maintained merchandise displays and store organization while supporting smooth daily retail operations.

CERTIFICATIONS

Cisco Networking Academy

- IT Essentials: PC Hardware and Software
- CCNAv7: Introduction to Networks
- CCNAv7: Switching, Routing, and Wireless Essentials
- CCNAv7: Enterprise Networking, Security, and Automation

CYSOP Ethical Hacking

- Multiple Certificates

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

Student Representative Council (SRC) — Panel Interview Member

- Evaluated candidates and contributed to the selection of new student representatives.

CSR Documentation Team

- Prepared meeting minutes, compiled project documentation and reports, and coordinated documentation matters with the lecturer.

Emcee - United Nations General Assembly Model Event, MJSC

- Hosted formal sessions for delegates, demonstrating public speaking, communication, and event coordination skills.
- **English Motivational Committee (EMC) — Ethics & Protocol Panel**
- **Tennis Club — Activity Bureau**
- **Taekwondo Club — Active Member**
- **Community Service — Hearts in the Soil, Kebun Komuniti Hartamas | Aug 2025**

ACHIEVEMENTS

Inter-MRSM Debate Se-Malaysia 2023

- Octo-Finalist | Top 10 Best Individual Speakers - 2nd Place

English Speaking Union (ESU)

- National-Level Public Speaking Contestant

Academic Challenges: PC × SBP FARIS PETRA

- Comprehension Category - 4th Place

East Zone MRSM Language Week Competition 2022

- Public Speaking - 3rd Place
